Richter Announces New Partnership with LEWA-Nikkiso America, Inc.

Kempen - August 26, 2016 - Richter Chemie-Technik GmbH, a market leader in fluoropolymer lined pump and valve solutions announced a new partnership with LEWA-Nikkiso America, Inc., a USA-based supplier of pump and system solutions. This partnership combines Richter's specialty pumps for the most corrosive applications, with LEWA-Nikkiso's broad offering of metering pumps, canned motor pumps, system components and system engineering solutions.

"We are excited to extend our multi-year strong European partnership with a highly regarded partner to the Americas. LEWA-Nikkiso's in-depth knowledge and market coverage will benefit first and foremost our customers," said Mathieu Tijskens, MD for Richter. "In turbulent times it is critical to serve customers with complete solutions from suppliers in their proximity they can rely on," he continued.
